Bangalore, Karnataka, India

Professional Summary

Computer Science Engineering student with a strong technical foundation in Python, Java, C, and MySQL, and hands-on experience building full-stack and AI-integrated applications. Skilled in translating complex technical concepts into practical solutions, with proven problem-solving ability across full project lifecycles from design through deployment. Strong communicator with a collaborative, detail-oriented approach, seeking to apply analytical and technical troubleshooting skills as a Customer Success Engineer Trainee in a fast-paced technology environment.

Projects

AI Medical Chat Bot – Final Year Project

Full-Stack Project (Python, Streamlit, LLM)

Bangalore, Karnataka

- Developed a full-stack web application using Streamlit for the frontend and a Large Language Model (LLM) backend, entirely in Python.
- Engineered medical image analysis capabilities to interpret X-ray, MRI, and CT scan inputs for preliminary diagnostic insights.
- Built automated medical report analysis functionality to extract and summarize key health information for end users.
- Integrated a nearest-hospital locating feature to connect users with relevant healthcare facilities in real time.

Smart Shopper Price Comparing Tool – Personal Project

Chrome Extension

Bangalore, Karnataka

- Designed and built a Chrome extension that compares Amazon product prices against other e-commerce platforms in real time.
- Implemented price-matching logic to identify the lowest available price, improving purchasing decisions for online shoppers.

YouTube Movie Recommendation Tool – Personal Project

Chrome Extension

Bangalore, Karnataka

- Built a Chrome extension leveraging the YouTube Data API v3 and Gemini API to recommend movies based on user preferences.
- Implemented filtering logic based on language, release time, and view count to personalize movie recommendations.

Skills

Python (Basic to Advanced): Core Syntax & Data Types, Control Flow, Functions & Lambda Expressions, OOPS (Classes, Inheritance, Polymorphism, Encapsulation), Exception Handling, File Handling, Modules & Packages, List/Dict/Set Comprehensions, Iterators & Generators, Decorators, Multi-threading & Multiprocessing, Regular Expressions, Working with APIs & JSON

Languages: Java (Core), C, Python, MySQL/DBMS

Tools & Platforms: Streamlit, Chrome Extension Development, MySQL

AI Basics: API Calling, Prompt Engineering, Streaming, Structured Formatting, RAG, Chunking, Embedding

Concepts: Data Analysis, AI/LLM Integration, API Integration

Soft Skills: Teamwork, Problem Solving, Creative Thinking, Effective Communication

Education

S.J.M. Institute of Technology

2022 – 2026

Bachelor of Engineering in Computer Science and Engineering (CGPA:8)

Chitradurga, Karnataka, India

SJM Independent PU College

2019 – 2021

Pre-University, Karnataka State Board (79.66%)

Chitradurga, Karnataka, India

Sri Vasavi English High School

2019

10th Grade, Central Board (81.66%)

Chitradurga, Karnataka, India

Certifications

Deloitte Data Analytics Job Simulation – Forage (May 2026)

Coursera: Stay Ahead of the AI Curve (May 2026)

Coursera: Use AI Responsibly (May 2026)

Coursera: Discover the Art of Prompting (May 2026)

Coursera: Maximize Productivity With AI Tools (May 2026)

Coursera: Introduction to AI (May 2026)

Coursera: Google AI Essentials (May 2026)
